ANESTHESIOLOGY
Volume 2

INDEX TO SUBJECTS

Items having **boldface type** indicate titled subjects of articles

Abdomen, regional anesthesia, **194**
Acetone, effect on protoplasm, 305
Adrenalectomy, effect on toxicity of hypnotics, **37**
Air conditioning, relation to explosion hazard, 135
Air embolism, 251
Alcohol,
  benzyl, topical application, 500
  ethyl, injection, 545
    pentothal sodium during, 679
Alpha-lobeline, during pentothal anesthesia, 276
Alveoli, sensory innervation, 66
Analgesia, dilaudid intravenously, **170**
Anesthesia,
  apnea during, effect of morphine, **530**
  block,
    abdominal wall, **194**, 199
    alcohol, 679
    arm, **515**
    bilateral intercostal, 199
    brachial plexus, 522
    breast, 196
    caudal, 370, 374
    cervicothoracic sympathetic, 680
    deep cervical, 516
    foot, 386
    head, **61**
    hernia, 200, 373
    hydrocele, 371
    intercostal, 198, 199
    kidney, 683
    knee, 385
    leg, 372, 384, **369**
    lumbar sympathetic, 681
    median nerve, 525
    metacarpal, 528
    neck, **61**, **515**
    nerve, 490, 525
    paravertebral, 198, 676
    penis, 370
    peridural, 674
    perineum, **369**
    phalangeal, 528
    phrenic nerve, 521
    precautions, 522, 524, 528
    pudendal, 370
    pudic, 370
    radial nerve, 522
    sciatic nerve, 373
    shin, 384
    shoulder, 541
    small tumor, 196
    splanchnic, 681
    subarachnoid (see anesthesia, spinal)
    superficial cervical, 519
    suprapubic, 200
    suprascapular nerve, **541**
    sympathetic nerve, 679
    therapeutic use, 545, 679
    thorax, **194**
    transsacral, 370, 374, 381
    ulnar nerve, 526
    vein ligation, 372
    with general anesthesia, 199
    with pentothal sodium, 199, 529
  brain during, 45
  chemotherapy, 575
  choice, **172**, 494
  development of, **552**
  during climacteric, 167
  effect on blood flow, **186**
  effect on existing pathology, 172
  endotracheal (see intratracheal)
  first death from, **443**
  for children, 644
  for kidney operations, 682
  for obstetrics, cyclopropane, 652
  for thoracic operations, **310**, 652
  gas, technical development, **398**
  history, 398, 443, **552**, 635
  influence of site of operation, 173
  intratracheal,
    for sinusotomy, 72
    improved exposure of vocal cords, 586
    nasotracheal intubation, **28**
    orotracheal intubation, **28**
    prevention of broken teeth, 586
    relation to respiratory morbidity, **28**
  intravenous (see barbiturates, etc.)
    method of administration, 536
  motor system during, 45
  origin of the word, 573
  records,
    grading of patients, **281**
    in military service, **179**
  regional (see also anesthesia, block), **61**, **194**, **369**, **515**, **669**
  relation to heart disease, **161**
  spinal, **203**, **205**, 669
    continuous, 673
    dosage of drugs, 670

nausea and vomiting, effect of medication, **333**
position of patient, 669
site of injection, 670
technic of injection, 671
surface, 69, 499
technic, 141, 651, 671
theory, **300**
vitamin B, value before, 165
wartime, **694**
Anesthesiology, **207, 339**
Anesthetics,
chemical effects of carbon dioxide absorption, 13
combustible, 136, 580
evaluation, **443**
explosions, **144**
prevention, **121**, 136, 580
influence on bacterial flora, **80**
local,
calcium salts antagonism, **74**
composition, **489**
detoxication, **74, 661**
percentage of solutions, 516
oil soluble, 545
oil-water distribution ratio, **546**
surface, 499
Anesthetist,
ability of, relation to choice of anesthetic, 173
mobilization of, **90**
Anoxia,
during cyclopropane anesthesia, 619
during ether anesthesia, **44**
Apnea, influence of morphine, **530**
Apparatus,
anesthetic,
development of, 398
machine, relation to explosion hazard, 134
artificial respiration, 248, 250
carbon dioxide absorbers, **2, 450**
ether vaporizer, **695**
laryngoscope, **317**
oxygen mask, **421**
revised metric machine, 322
silencers for tanks, 586
Atropine sulfate,
action before epinephrine, 656
effect during cyclopropane anesthesia, 612
effect in apnea, **530**
Avertin (see tribromethyl alcohol)

Bacterial flora, effect of anesthetics, **80**
Baralyme, preliminary report, **621**
Barbital sodium, effect on heart, 628
Barbiturates,
action during chloroform anesthesia, 638
effect before cyclopropane induction, **616, 619**
effect of stimulant drugs, 272
failure to prevent tachycardia, **628**
toxicity, effect of temperature, 39
Barospirator, 249
Benzocaine, surface application, 500
Benzyl-gamma-(2-methyl-piperidino)-propanol hydrochloride (see metycaine)
Bladder, block anesthesia, 200
Blood,
circulation, **261**
during respiratory failure, 248
effect of cyclopropane, **186**
Brachial plexus, anatomy, 522
Brain,
action of ether, 44
operations, anesthesia for, 65
Breast, block anesthesia, 196
1-Brom ethene, 394
1-Brom 2 methyl propene, 394
1-Brom propene, 394
1-Brom propene-1, anesthetic potency, **535**
2-Brom propene, 394
2-Brom propene-1, anesthetic potency, **535**
Buffer salts, 492
Butesin, surface application, 500
Butyn sulfate, 495
calcium salts antagonism, 74
detoxication, 661
surface application, 500

Calcium salts, protective action, **74, 661**
Canisters, 2
bacteriologic studies, 18
pattern of absorption, 8
"Carbitol" solvent with benzocaine, 501
Carbon dioxide,
action during ether anesthesia, 46
anesthetic properties, 301
effect on medulla, 245
effect on tachycardia, 503
for preventing explosions, 138
Carbon dioxide absorbers, **1**, 12
Baralyme, **621**
Carbon dioxide absorption, 1
canisters, **450**
chemical effect on anesthetics, 13
chemical reaction, 3, 455
effect of direction of airflow, 453
effect of increased carbon dioxide output, 452
effect of increased respiratory rate, 452
effect of shape of canister, 452
effect of temperature, 5
effect of tidal volume exchange, 6
nitrous oxide adapted to, **321**
resistance, 17
temperatures resulting from, 13
Cellular respiration, 161
Chemotherapy, relation to anesthesia, 575
Chlorbutanol, surface application, 500
1-Chlor ethene, 394
1-Chlor 2 methyl propene, 394
1-Chlor n-butene, 394
2-Chlor n-butene, 394

Chloroform, **635**
effect on kidney, 392
effect on liver, 392
effect on protoplasm, 304
first death from, 443
1-Chlor propene, 394
1-Chlor propene-1, anesthetic potency, **535**
2-Chlor propene, 394
2-Chlor propene-1, anesthetic potency, **535**
Circulation (see blood)
Climacteric, anesthesia during, 167
Cobefrin, in local anesthetic solutions, 496
Cocaine, surface application, 69, 500, 516
Colchicine, toxicity, 37
Complications,
during anesthesia, 654
following cyclopropane, 645
plan for study, 686
postanesthetic, 686
causative factors, **44**
respiratory,
relation of intubation, **28**
role of bacterial flora, **80**
Continuous spinal (see anesthesia, spinal)
Controlled respiration, 651
Convulsions,
effect of morphine sulfate, 433
effect of nembutal, 438
ether, 47
Coramine,
action with morphine sulfate, 431
during pentothal anesthesia, 274
Craniotomy, anesthesia for, 65
Cyclopropane, 531, **641**
arrhythmias, **611**
effect on blood flow, **186**
effect on blood pressure, **261**
effect on heart size, **261**
effect on kidney, 392
effect on liver, 392
effect on protoplasm, 303
effect on stroke-volume, **261**
effect on vagal action, 166
explosion hazard, 121, **138**
for children, 644
high concentrations, 612
limits of inflammability, 139
with epinephrine, tachycardia,
failure of barbiturates to prevent, **628**
protection from, **503**
with ether, action of epinephrine, 657
with oxygen-helium, technic, 141

Deaths, **443**, 654, **657**
Delvinal sodium, effect in tachycardia, 628
Diethyl-amino-methyl benzo-dioxane (F 883), 503
Digitalis, effect on carotid sinus reflex, 166
Dilaudid, intravenously, **170**
Diothane, surface application, 500
Drinker respirator, 249
Drugs,
local anesthetic, detoxication, 661
stimulant,
action with morphine, **427**
during pentothal anesthesia, 272
vasoconstrictor, 496

Editorial (see Index of Authors)
Elbow, block anesthesia, 525
Electrocardiograph, 166, 509, 612, 628
Electrostatics, relation to anesthesia, 125
Emerson respirator, 249
Epinephrine hydrochloride,
action during cyclopropane anesthesia, **503**
effect of barbiturates, **503**, **628**
action during cyclopropane-ether anesthesia, **657**
action during ether anesthesia, **654**
application to mucous membrane, 69
effect of atropine on action of, 656
Ergotamine tartrate, effect in tachycardia, 503
Ether,
diethyl, **635**
cerebral anoxia during, **44**
complications following, **44**
convulsions, 47
effect on kidney, 392
effect on liver, 392
effect on protoplasm, 304
epinephrine during, **654**
explosion hazard, 121
method for rapid vaporization, **695**
with cyclopropane, action of epinephrine, 657
divinyl, **635**
concentrations, **546**
hepatorenal syndrome following, **388**
oil-water distribution ratio, **546**
stability, **191**
survey of literature, **285**
Ethyl chloride, **635**
Ethylene,
effect on protoplasm, 303
explosion hazard, 121
Evipal soluble, effect on cardiac irregularities, 616
Explosions,
prevention, **121**, **138**
recommended safe practices, 580, 689
statistics, **144**
Eye operations, anesthesia for, 73

F 883 (diethyl-amino-methyl-benzo-dioxane), 503
Fabrics, relation to explosion hazard, 132
Fatality (see death)
Fingers, block anesthesia, 528
Fires (see explosions)
Flame barriers, 137
Flooring, conductive, 127
Furniture, relation to explosion hazard, 129

Genitalia, innervation, 369
Glands of neck, anesthesia for, 63

Hand, block anesthesia, 527
Head, operation, block anesthesia, **61**
Heart,
  action during cyclopropane anesthesia, **611**
  disease,
    choice of anesthetic, **161**
    role of vitamin B, 165
  effect of cyclopropane-epinephrine, **503**
  irregularities, effect of barbiturate induction, 616, 619, 628
Helium, value in preventing explosions, **138**
Hernia, block anesthesia, 200
Hollerith punch card system, **179**
Hydrocarbons, anesthetic potency, **393**, 535
Hyperglycemia, during anesthesia, 163
Hypnotics, toxicity,
  effect of adrenalectomy, **37**
  effect of temperature, **37**
  effect of thyroxin, **37**
Hypothalamus, during anesthesia, 618
Hypothermia, survival by dog, **410**

Insulators, relation to explosion hazard, 133
Insulin-glucose, paraldehyde antagonism, 25
Intercoupling, high resistance, 126
Intracaine in oil, 545

Kidney,
  damage after anesthesia, **388**, 392
  operations, block anesthesia for, 682

Larocaine, surface application, 500
Laryngectomy, anesthesia for, 63
Laryngoscope, new model, **317**
Liver, damage after anesthesia, **388**, 392

Menthol, surface application, 500
Metrazol,
  action with morphine, 430
  during pentothal anesthesia, 275
  paraldehyde antagonism, 25
Metycaine, 672, 679
  regional anesthesia, 62
  surface application, 500
Military service,
  anesthesia records, **179**
  anesthetists in, **90**
Monocaine, 495
Morphine sulfate,
  alleged anticonvulsant action, 433
  combined action with central stimulants, **427**
  effect in tachycardia, 503
  effect on action of cyclopropane, 612
  effect on carotid sinus reflex, 166
  influence on apnea, **530**
  in heart disease, 164
  poisoning,
    effect of nembutal, 432
    treatment, **427**
Motor system, effect of anesthesia, 45

Nasopharynx, sensory innervation, 66
Nausea, during spinal anesthesia, effect of preanesthetic drugs, **333**
Neck,
  block anesthesia, **61**, **515**
  sensory innervation, 61
Nembutal (see pentobarbital)
Neospiran, during pentothal anesthesia, 276
Neosynephrin, with local anesthetics, 496
Nerves,
  abducens, paralysis, 71
  blocks (see anesthesia, block)
  cell, effect of anesthesia, 45
  phrenic, 31
  suprascapular, **541**
  ulnar, 526
Nitrogen, value in preventing explosions, **138**
Nitrous oxide,
  adaptation to "to and fro" technic, **321**
  effect on protoplasm 304
  for thoracoplasty, **310**
  history of, 398
  with oxygen-ether, convulsions, 48
Nose, sensory innervation, 66
Nupercaine, surface application, 500
Nupercaine-dextrose solution, **203**

Oil-water distribution ratio, **546**
Ointments, anesthetic, 500
Olefins, anesthetic value, 396
Orthoform, surface application, 500
Oxygen,
  after anesthesia, dangers, 141
  control, to prevent explosions, 138
  deprivation, 533
  postoperative use, 164
  pressure, 247
  requirements, 141
  therapy, **245**, **421**

Pain, dilaudid intravenously for relief, 170
Palate, sensory innervation, 66
Pantocaine hydrochloride, 334
  crystalline, **205**
  surface application, 500
Pantopon, 333
Paraldehyde, **20**
  dangers, 20
  determination in blood, 22, 24
  effect of liver damage, 23
  fate in body, 22
  overdose, therapeutic measures, 25
  toxicity, effect of temperature, 38
Paralysis,
  abducens nerve, 71
  hysterical, treatment, **59**
Parotid gland operations, anesthesia for, 63
Pentobarbital sodium,
  action with morphine-metrazol, 432
  anti-convulsant action, 438
  before local anesthesia, 66
  effect in tachycardia, 628
  toxicity, effect of temperature, 39

Pentothal sodium,
before alcohol injection, 679
effect of stimulant drugs, **272**
effect in tachycardia, 628
effect on intracranial pressure, 65
induction for cyclopropane anesthesia, 616
treatment of hysteria, **59**
with regional anesthesia, 529
with sulfanilamide,
dosage-mortality ratio, **456**
histopathology, **326**
Phenol, surface application, 500
Phrenic nerve interruption, anesthesia for, 521
Physarum polycephalum, experimental study, 300
Picrotoxin,
action with morphine, 430
during pentothal anesthesia, 277
paraldehyde antagonism, 25
Pillows, relation to explosion hazard, 131
Posture, for spinal anesthesia, 669
Potassium salts, detoxication of local anesthetics, **661**
Potassium sulfate, use in local anesthetic solutions, 490
Preanesthetic medication,
before local anesthesia, 66, 515
before thoracoplasty, 311
effect on action of cyclopropane, 612
influence on apnea, **530**
influence on nausea and vomiting, **333**
Procaine borate, 492
Procaine hydrochloride, 669, 679
calcium salts antagonism, 74
choice of preparation, 669
detoxication, 661
dosage, 670
hydrogen ion concentration, 491
isotonicity, 490
protective action in tachycardia, 503
surface application, 500
toxicity, effect of temperature, 37
Propylene glycol with benzocaine, surface application, 501
Protoplasmic behavior, theory of anesthesia, **300**
Psychotherapy, barbiturates in, 59

Quinidine sulfate, effect in tachycardia, 503

Radial nerve, block anesthesia, 526
Records, military service, **179**
Respiration,
cellular, 161
effect of premedication, 531
effect of stimulant drugs, 272
physiology of, 245
Respiratory center, effect of ether, 46
Resuscitation,
manual methods, 248
mechanical appliances, 248
physiological principles, **245**
Risk, operative, method of grading, **281**

Saligenin, surface application, 500
Scopolamine, **530**
Seconal, effect on tachycardia, 628
Shoes, relation to explosion hazard, 129
Shoulder, block anesthesia, 541
Sinus operations, anesthesia for, 69, 72
Slime molds, effect of anesthetics, **300**
Soda lime, 12 (see carbon dioxide absorbers)
bacteriology, 18
canister, **450**
chemical effects of, 13
chemical reactions, 3
comparison to Baralyme, 621
regeneration, 455
Sodium amytal, effect on tachycardia, 628
Sodium bisulfite, in local anesthetic solutions, 493
Sodium salts, detoxication of local anesthetics, **661**
Strychnine sulfate, action with morphine, 428
Sulfanilamide, with pentothal sodium,
dosage-mortality ratio, **456**
histopathology, **326**
Suprascapular nerve, block anesthesia, **541**

Tachycardia, cyclopropane-epinephrine, **503**
Teeth, protection of, 586
Temperature,
effect on carbon dioxide absorption, 5
effect on efficiency of soda lime, 451
effect on toxicity of hypnotics, **37**
reduced, effect on dogs, **410**
Thixotropy, 307
Thorax, block anesthesia, **194**
Thyroid gland, operations, choice of anesthesia, 62
Thyroxin, effect on toxicity of hynotics, **37**
Tidal volume, effect on efficiency of soda lime, 451
Tribromethyl alcohol,
effect on carotid sinus reflex, 166
use in brain operations, 65
Tutocaine, surface application, 500

Ulnar nerve, block anesthesia, 526
Upper extremity, regional anesthesia, **515**
Urethane, 74

Vertebral column, anesthesia, **669**
Vinesthene (see ether, divinyl)
Vitamin B, value before anesthesia, 165
Vomiting, during spinal anesthesia, **333**

Yohimbine hydrochloride, effect in tachycardia, 503

Woodruff, L. M.:
Survival of hypothermia by the dog .. 410

INDEX OF AUTHORS AND TITLES OF ABSTRACTS

PAGE

Adams, R. C., and Lundy, J. S.:
Factors influencing the choice of the anesthetic agent and some suggestions on anesthetic technic 223
Adriani, John, and Rovenstine, E. A.:
Effects of spinal anesthesia upon venous pressure in man 230
Alexander, John:
Preoperative and postoperative care of patients with surgical diseases of the chest 595
Allen, J. G., and Livingstone, H.:
Postoperative hypothrombinemia and anesthesia 488
Alvarez, W. C., and Mason, A. Y.:
Results obtained in the treatment of headache with the inhalation of pure oxygen 108
Ambler, A. C.:
Cyclopropane and tribromethyl alcohol anesthesia at Western North Carolina Sanatorium 698
Anonymous:
Concentrated blood plasma thought best remedy for shock. Swift and dramatic results within a few minutes with plasma redissolved after drying and freezing 368
Ausherman, H. M.:
Choice of anesthesia in acute surgical emergencies 699

Baker, A. H. L.:
Endobronchial lipiodol under general anesthesia in children 702
Ball, Margaret, and Quist, George:
Some recent air-raid casualties 487
Barker, N. W.; Nygaard, K. K.; Walters, Waltman, and Priestley, J. T.:
A statistical study of postoperative venous thrombosis and pulmonary embolism. I. Incidence in various types of operations 241
Barrie, H. J.:
Meningitis following spinal anaesthesia: report on eleven cases 599
Bartlett, R. W.:
Bilateral intercostal nerve block for upper abdominal surgery 117
Barton, F. E.:
Simplified citrate-dextrose blood preservative 476
Batten, D. H.:
Spinal anesthesia in cesarean section .. 602
Behrend, A., and Riggs, H.:
Cerebral complications following surgical anesthesia. II. Factors which predispose to cerebral anoxia 119

Bell, F. K., and Krantz, J. C., Jr.:
Determination of unsaturates in cyclopropane 604
Black, D. A. K.:
Treatment of burn shock with plasma and serum 235
Boothby, W. M.; Mayo, C. W., and Lovelace, W. R.:
One hundred per cent oxygen. Indications for its use and methods of administration 109
Boroff, D. A.; Cooper, Anita, and Bullowa, J. G. M.:
Inhibition of sulfapyridine by the procaine in chest fluids after procaine anesthesia 708
Boston, F. K., and James, N. R.:
Rectal hexobarbitone soluble: a useful form of basal anaesthesia 359
Brace, D. E., and Reid, L. C.:
Use of ergotoxine and ergotamine in the surgical management of thyrotoxicosis 363
Brines, O. A., and Manning, J. E.:
Development of the plasma bank 477
Experience with the blood bank 476
Brown, W. E., and Lucas, G. H. W.:
Further studies with ethyl normal propyl ether 234
Brunner, R., and Seed, Lindon:
Blood pressure and pulse rate changes during thyroidectomy 468
Bull, David, and Drew, C. R.:
Preservation of blood 113
Burnett, W. E.:
Management of local anesthesia, particularly for the diabetic patient 232
Burstein, C. L.:
Respiratory depression during anesthesia attributable to carotid sinus disturbances: a clinical and laboratory study 359
Burstein, C. L., and Rovenstine, E. A.:
Autonomic activity and anesthesia. I. Some effects of parasympathetic drugs during anesthesia 345
Butler, T. C.:
Anesthetic activity of optical antipodes. II. Arabinochloraloses 96
Butler, T. C., and Bush, M. T.:
Metabolic fate of 1-methyl-5-allyl-5-isopropyl barbituric acid (Narconumal) . 97
Butler, T. C., and Dickinson, H. L.:
Anesthetic activity of optical antipodes. I. Secondary butyl alcohols 95

Cameron, W. M., and Kasanin, J.:
Pharmacologic and clinical re-evalua-

tion of amphetamine (benzedrine) sulfate 600
Carmichael, E. B., and Thompson, W. D.:
Effect of repeated administration of delvinal sodium [5-ethyl-5-(1-methyl-1-butenyl)] barbituric acid to guinea pigs 488
Cheney, Gannett:
Clinical value of vitamin K 98
Chivers, E. M., and Evans, W. E. F.:
Anaesthesia in surgical shock 706
Christiansen, G. W.:
Technic for general anesthesia in surgery of the mouth 228
Clapperton, G.:
Estimation of operative risks and choice of anesthesia 344
Clark, O. R.:
Spinal anesthesia in general surgery: an analysis of 400 cases 711
Coffey, R. R.:
Practical points in meeting the poor surgical and anesthetic risks 702
Corlette, C. E.:
Fifty-five cases of radical operation for cancer of the breast under local anaesthesia, with an account of the technique 356
Craig, P. E.:
Use and abuse of spinal anesthesia ... 603

Daniels, W. B.; Leonard, B. W., and Holtzman, Saul:
Renal insufficiency following transfusion: report of thirteen cases 478
Davis, H. A.:
Transfusion of conserved blood 233
David, N. A.; Phatak, N. M.; Donnell, H., and Vehrs, H.:
Intravenous toxicity of heparin-sodium sulfapyridine combinations and protective action of barbiturates 486
DePree, J. F.:
Morphine-scopolamine anesthesia—in first aid treatment of the injured 238
Doudna, H. E., and Mechling, C. S.:
Thyroid anesthesia; a comparative study 118

Editorial:
Dried plasma 470
Elam, John:
Teaching of anaesthetic methods for use in general practice 218
Elliott, John; Tatum, W. L., and Busby, G. F.:
Blood plasma 470

Fay, Temple:
Observations on prolonged human refrigeration 347
Fellows, E. J.:
Toxicity and local anesthetic activity of three new biphenyl derivatives 709
Follis, R. N., Jr.:
Coronary arteries in relation to sudden death during anesthesia 114
Forbes, J. C.; Leach, B. E., and Outhouse, E. L.:
Studies on fat metabolism and susceptibility to carbon tetrachloride 702
Fraser, C. K., and Jones, J. W.:
Paraldehyde analgesia and perineal anesthesia in obstetrics 212
Fraser, R. J.:
High spinal anesthesia 104
Friedman, S. M.:
Effect of progesterone anesthesia on systemic blood pressure 468

Gaysinskiy, B. E.:
Use of Rivanol (acridine dye) and procaine hydrochloride (novocaine in combined method of anesthesia and deep antiseptic) 355
Gellhorn, Ernst, and Lambert, E. H.:
Vasomotor system in anoxia and asphyxia; study of the adjustment reactions of the mammalian organism .. 91
Gifford, J. H., and Wilkinson, F. A. H.:
Comparative study of three spinal anaesthetic agents: (a new technique for nupercaine) 354
Gordon, E. J.:
Postoperative complications. Analysis of etiology, diagnosis, prophylaxis and treatment 216
Goyan, F. M., and Daniels, T. C.:
Certain salts of atropine, ephedrine, epinephrine and procaine 709
Gruber, C. M., and Gruber, C. M., Jr.:
Effect of barbituric and thiobarbituric acid derivatives on the pyloric sphincter and stomach in unanesthetized dogs 710
Gwathmey, J. T.:
Fifty years of anesthesia 346

Halton, John:
Anaesthesia in chest injuries 348
Hamm, W. G.:
Fractures of the jaws 606
Hand, L. V., and Sise, L. F.:
Nupercaine anesthesia 105
Harper, S. B.; Osterberg, A. E.; Priestley, J. T., and Seldon, T. H.:
Changes in serum protein and hemoconcentration in man following transfusion of a solution of dried blood plasma 479
Heidrick, A. F.; Adams, W. E., and Livingstone, H. M.:
Spontaneous pneumothorax following positive pressure intratracheal anesthesia 213
Henderson, Yandell, and Turner, J. M.:
Artificial respiration and inhalation:

principle determining the efficiency of various methods 601
Herrmann, J. B.:
Effects of certain drugs on temperature regulation, and changes in their toxicity, in rats exposed to cold 699
Hill, J. M.; Muirhead, E. E.; Ashworth, C. T., and Tigertt, W. D.:
Use of desiccated plasma with particular reference to shock 467
Howkins, John:
Value of placental blood for transfusion 474

Sketches—block anesthesia for operations on the hand 527
Table—onset of apnea 531
Tracings—onset of apnea 532
Table—duration of apnea 533
Table—concentrations of halogenated propenes in blood, etc. 536
Sketch—anesthetic mask and rebreathing bag 536
Table—biochemical effects of halogenated propenes 537
Table—blood concentrations of various anesthetics 539
Pictures—scapulae 542
Pictures—superficial landmarks for suprascapular nerve block 543
Sketch—skin markings for suprascapular nerve block 544
Table—distribution ratio of divinyl ether 547
Graphs—distribution ratio of divinyl ether 548, 549
Picture—early use of alcohol fumes for anesthesia 554
Picture—Mesmer practicing animal magnetism 557
Picture—title page to Humphry Davy's book 559
Picture—Humphry Davy's "gas machine" 560
Picture—Hickman experimenting with anesthesia 562
Picture—title page to Hickman's pamphlet 563
Picture—Crawford W. Long 564
Picture—Horace Wells 566
Picture—William T. G. Morton 567
Picture—John C. Warren 568
Picture—first public demonstration of anesthesia with ether 571
Electrocardiographs—cyclopropane, no premedication 613
Electrocardiographs—cyclopropane, with premedication 615
Electrocardiographs—cyclopropane 617
Graphs—soda lime and Baralyme 623
Graph—soda lime 624
Graph—Baralyme 625
Table—cardiac responses to epinephrine (barbiturates, cyclopropane) 629
Table—duration of tachycardia during cyclopropane, etc. 631
Graphs—cyclopropane, age, physical states, etc. 643
Graphs—cyclopropane, anatomical regions, anesthetic technics 644
Graph—cyclopropane, complications 645
Graph—cyclopropane, respiratory complications 646
Graphs—cyclopropane, circulatory complications 647
Graph—cyclopropane, gastro-intestinal, nervous system complications 648
Graph—cyclopropane, genito-urinary complications, mortality study 649
Graph—cyclopropane, mortality study .. 650
Table—butyn sulfate, detoxication.. 662, 664
Table—procaine hydrochloride, detoxication 663, 664 665
Table—irritant action of Na- K- Ca salts 666
Sketch—position of patient for spinal anesthesia 670
Table—outline for spinal anesthesia 672
Sketches—continuous spinal anesthesia.. 674
Sketches—peridural block 675
Sketch—paravertebral thoracic block ... 678
Sketches—sympathetic nerve block 680
Sketch—splanchnic anesthesia, posterior approach 682
Sketches—areas of anesthesia in kidney block 683
Sketches—ether vaporizer attached to soda lime canister 696, 697

MISCELLANY
